Problem Statement

Since Covid there is a lot more awareness about mental health and anxiety and reactive help is out there. However there is still not enough awareness as to helping children proactively, to help them avoid mental health issues.

We focus on being proactive and need a lot of help to try and convince people to not wait but to help prevent these issues.

Needs Assessment

- Enhancing Awareness and Education
- Strengthening Digital Presence and Engagement
- Resource Development and Accessibility
- Building Collaborative Partnerships

Brand Identity

Our content will feel like a warm conversation with a supportive friend, making mental health approachable and judgment-free.

Every post and video will provide clear, practical steps that audiences can immediately apply to improve their well-being.

We'll use mascots, humor, and interactive storytelling to make learning about mental health fun and engaging.

Our content will simplify complex mental health concepts into easy-to-understand, science-backed insights that anyone can grasp.

We will ensure that our content is inclusive, with subtitles, simple language, and platform-optimized formats to reach a diverse audience.

FRIENDLY
ACTIONABLE
PLAYFUL
EDUCATIVE
ACCESSIBLE

Create an interactive and engaging digital space where audiences actively participate in conversations about mental health, fostering a supportive community through meaningful interactions across YouTube and other platforms.

Specific - Measurable - Achievable - Relevant - Time Bound

S

Increase audience interaction across **YouTube and other platforms** by creating engaging content, fostering discussions, and encouraging participation in mental health-related topics.

M

Achieve at least **200+ meaningful comments, shares, or direct interactions per month** across platforms, with an **engagement rate of 5%+ on Instagram and an average watch time of 60%+ on YouTube videos**.

A

Implement **interactive content formats** such as polls, Q&A sessions, mascot-driven challenges, and call-to-action prompts in videos and posts.

R

Higher engagement ensures that the campaign **builds an active community**, raises mental health awareness, and increases content visibility through platform algorithms.

T

Reach these engagement targets **within 3 months** and maintain consistent growth afterward.

Current Demographics

Primary Audience:

Children (2-12 years old)
Parents & Caregivers
Educators & Mental Health Advocates

Secondary Audience:

Potential Sponsors & Brands

Geographic & Cultural Reach:

- UK and South Africa

S

STRENGTHS

- Maximum impact through the strategic selection process of charities and social enterprises, which follows its core mission
- Years of expertise
- Proven demand and attention in the past events in South Africa and UK

W

WEAKNESSES

- People do not know about its specific projects and, therefore, may fail to support its initiatives.
- Engagement has always been a problem
- Untapped international outreach

O

OPPORTUNITIES

- Improve credibility and attract donors by making fund reporting transparent.
- The foundation can use community events together with collaborative partnerships to boost awareness.
- Global audience on YouTube and other platforms.
- Success of Sesame Street proven that mascot content can be used and loved.

T

THREATS

- Consistency
- Need for a large team of volunteers
- Funding the campaigns and content

Competitors

- Active on Social Media Platforms, not efficient on Youtube
- Focus on relaxation and mindfulness for children
- Large shop with diverse consumable content
- Use interactive exercises as engagement strategy
- Customer loyalty programs (email newsletters and more)
- Training the teachers and parents

The Bears of Blueberry Forest

The mascots serve as the **heart of the campaign**, making mental health education **engaging, relatable, and accessible** for children and adults alike

Execution & Deliverables

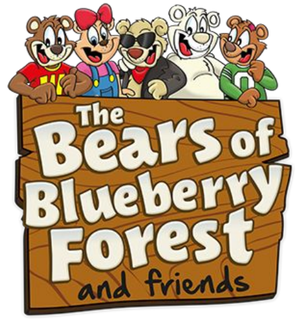

Analyze competitors, define engagement strategies, and establish a content roadmap aligned with core values (Friendly, Actionable, Playful, Educative, Accessible)

Design the mascot’s identity, develop engaging YouTube videos, and craft Instagram content with a consistent brand style (color palette, fonts, post formats).

Roll out the first set of videos and social media posts, implement engagement tactics (polls, challenges, Q&As), and track audience interactions.

Analyze performance metrics, refine content based on feedback, and expand reach through partnerships, collaborations, and cross-platform promotions.

The Bears of Blueberry Forest

- Write engaging, **mascot-driven scripts** that balance education and entertainment.

Video Title: "Why Do We Feel Anxious?

Mascot (cheerful tone): "Hey friends! Have you ever felt butterflies in your tummy before a big test? That's called anxiety! But don't worry—today, we'll learn why it happens and how to manage it. Let's go!"

Video Title: "Why Do I Get Angry?

Mascot (excited but reassuring): "Whoa! Have you ever felt like a volcano about to explode when something doesn't go your way? That's anger! But guess what? It's totally normal! Let's explore why we get angry and how we can cool down before we blow our top—together!"

Video Title: "How to Believe in Yourself – A Mascot's Secret!"

Mascot (encouraging tone): "Hey superstar! Have you ever thought, 'I'm not good enough'? Well, guess what? You ARE amazing! Sometimes, our brain plays tricks on us, but I'll show you three simple ways to boost your confidence and feel like a champion every day. Let's do this!"

- Use bright visuals, simple language, and engaging storytelling.
- Include interactive elements like quizzes or "pause and think" moments.

Target Audience

Potential Sponsors, Brands & Influencers

Organizations, businesses and celebrities interested in supporting mental health initiatives, corporate social responsibility (CSR) projects, or partnerships that align with positive social impact and our values.

Parents & Caregivers

Educators & Mental Health Advocates

Looking for reliable, easy-to-understand resources to support their children's emotional well-being.

Using the content for teaching and awareness purposes.

Children and teens (2-12 years old)

Engaged through playful, mascot-driven storytelling that simplifies mental health concepts.

Geographic & Cultural Reach:

- The content needs to be **universal**, ensuring accessibility across diverse cultures and languages.
- Likely to attract audiences from countries with a rising focus on **mental health awareness in education**.
- The content we create emphasizes **universal values** such as empathy, compassion, and understanding, fostering a collective effort to improve mental health awareness and support children in need.

EQ For All

Target Segment 1 - Kids

Leo

"The Curious Explorer"

Demographics

Age: 8
Location: Barcelona, Spain

Lifestyle

- Attends primary school and enjoys interactive learning.
- Loves outdoor activities like playing soccer and riding his bike.
- Watches YouTube for entertainment and learning, often supervised by parents.

Goals

- Understanding his emotions and learning fun ways to manage them.

Wants & Needs

- Easy-to-understand explanations for emotions and feelings.
- Content that feels like entertainment rather than a school lesson.
- Fun visuals, music, and characters that keep him engaged.
- A safe, friendly, and non-judgmental space to learn about emotions.

Motivations

- Wants to understand his feelings and learn how to manage them.
- Enjoys relatable stories where characters face similar challenges as him.
- Likes feeling "smart" when he learns something new and can share it with family and friends.
- Finds comfort in familiar, friendly mascots who make learning feel fun and exciting.

Interests

- Animated characters and mascots with fun, expressive personalities.
- Science experiments, adventure stories, and creative DIY activities.
- Interactive games, quizzes, and challenges that let him "play and learn."

Frustration

- Sometimes feels overwhelmed by emotions but doesn't know how to express them.
- Finds some educational videos boring or too difficult to understand.
- Wants content that feels like playtime rather than a lesson.

EQ For All

Target Segment 2 - Parents

Emma

"The Caring Parent"

Demographics

Age: 35
Location: London, UK

Lifestyle

- Balances a full-time job while actively raising her children.
- Prefers digital content she can trust without constant supervision.
- Engages with educational content that benefits both her and her children.

Goals

- Finding engaging and educational content to support her children’s emotional well-being.

Wants & Needs

- Reliable, child-friendly content that makes emotional learning engaging.
- Easy-to-follow parenting tips for supporting her kids' mental well-being.
- A safe and positive online space for her children to learn.

Motivations

- Wants her kids to grow up emotionally strong and self-confident.
- Values expert-backed advice that is simple to apply.
- Seeks digital content that makes parenting easier and more enjoyable.

Interests

- Following parenting blogs, mental health pages, and child development resources.
- Watching short, actionable videos that fit into her busy schedule.
- Finding fun activities to do with her kids to strengthen their emotional intelligence.

Frustration

- Too much screen time without educational value.
- A lack of engaging content that balances fun and learning.
- Overwhelming parenting advice that is difficult to implement.

Marketing Channels

LinkedIn
1+ Billion users

YouTube
2.5+ Billion users

Facebook
3.06 Billion users

Instagram
2+ Billion users

Social media marketing will focus on sharing emotional and impactful content to maximize impressions and online engagement, following the peripheral route of the Elaboration Likelihood Model (1986).

Marketing Strategy

1. Make specific content for organizations and executives
2. Educate through impact stories and expert insights.
3. Hashtags should stay consistent across platforms.
4. Engage by sharing real, inspiring stories that fits the platform
5. Promote sponsored events with excitement.

1. Short testimonials and real stories.
2. Engaging performances and relatable topics like mental health.
3. Use trending and relevant hashtags.
4. Entertaining clips from Youtube content
5. Testimonial/quotes from parent, teacher, kid, celebrity / Educative posts / Media from events (sports, chess, arts trainings)

1. Mascot content
2. In-depth impact stories, expert interviews, and documentary-style videos.
3. Showcase real experiences, success stories, and behind-the-scenes NGO work.
4. Use strong storytelling and relevant keywords for reach.

Marketing Strategy

Instagram

Authentic & Engaging Content – Share real stories (with trending filters) on emotional intelligence and mental health through testimonials, quotes, awareness posts (with trending and empathetic bg music), and event highlights.

→

Maximize Instagram Features – Use Stories & Reels (with trending musics and play with psychological triggers) for quick tips, affirmations, and behind-the-scenes content to boost engagement.

↓

Influencer & Expert Collaborations – Partner with mental health advocates and professionals to expand reach and credibility..

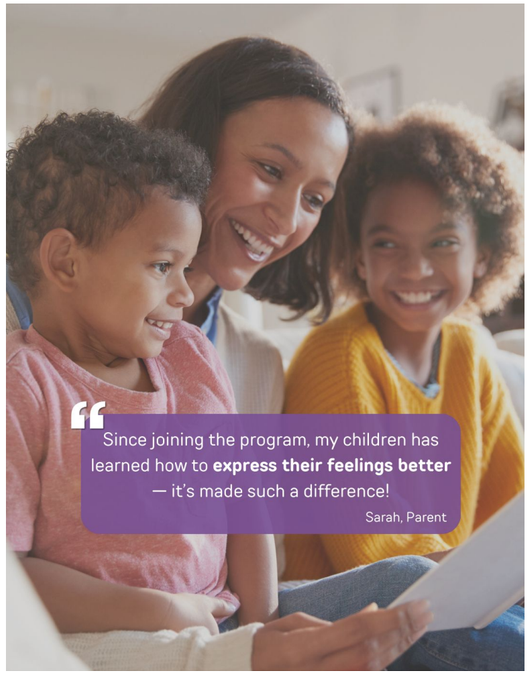

←

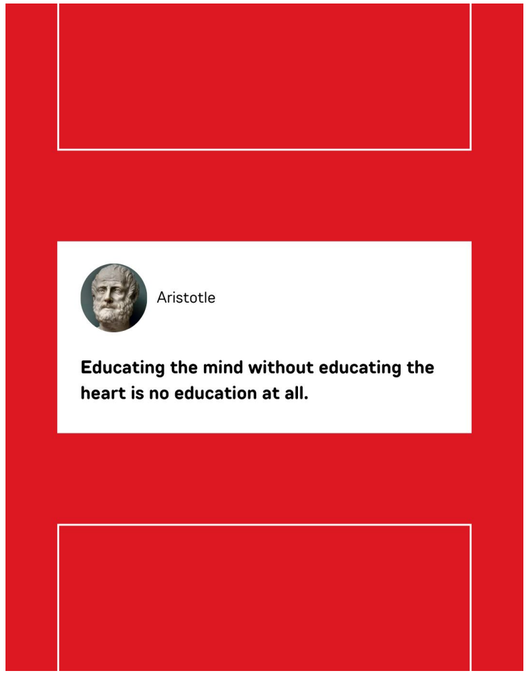

Awareness Campaigns – Launch themed and hashtag campaigns around key dates to encourage community participation. Also share similar contents of different creators in the stories.

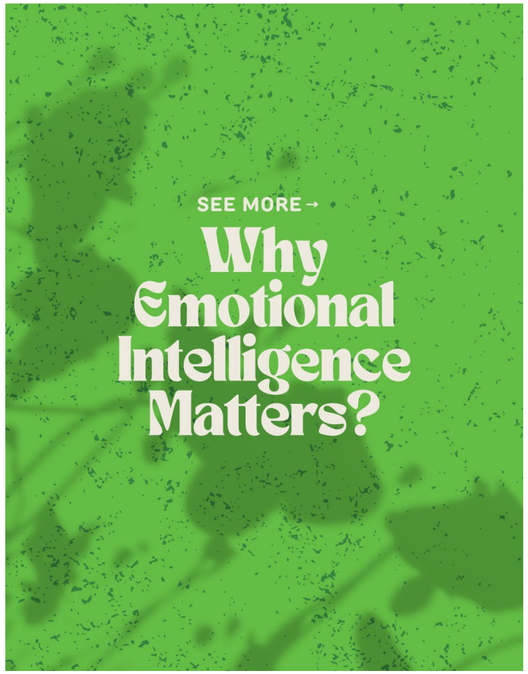

←

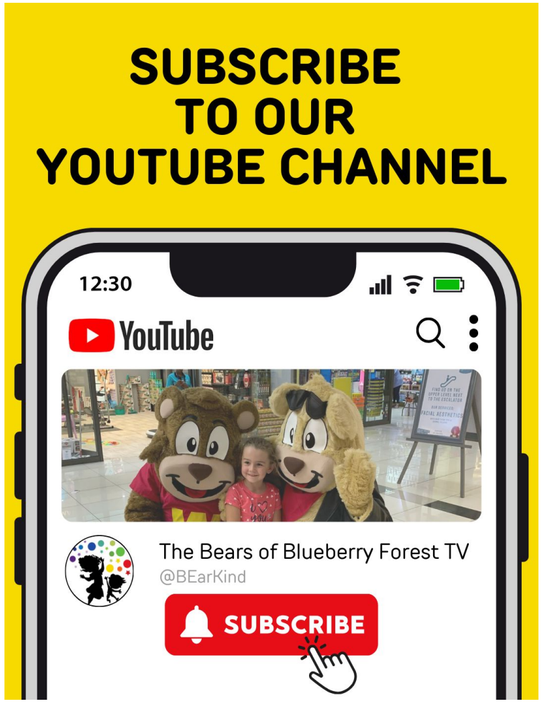

Performance Tracking – Use Instagram professional dashboard to monitor engagement and follow the strategies suggested by instagram itself.

Examples of Content

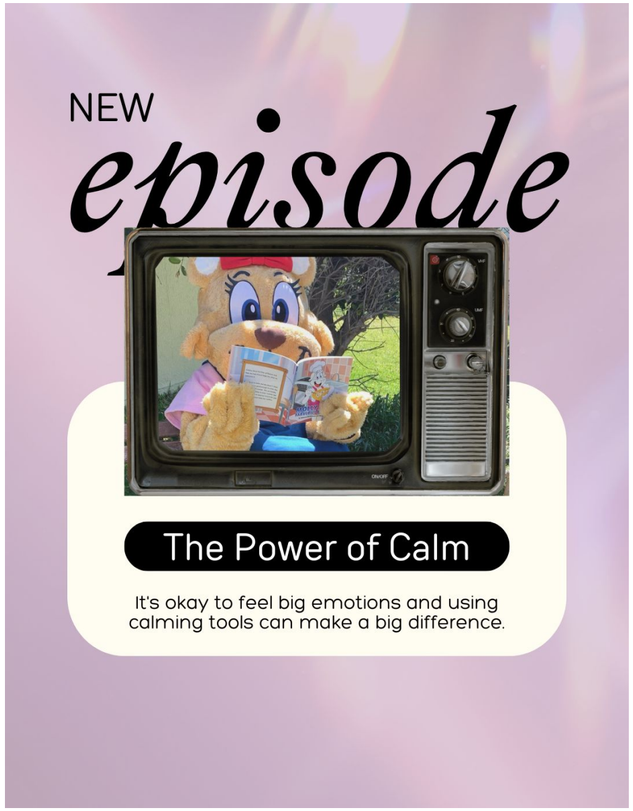

Performance Tracking

YouTube Metrics:

1. **Views**: **2,000 views** per video within the first month.
2. **Videos:** 2 videos per week
3. **Watch Time**: **30,000 minutes** watched per video in the first 30 days.
4. **CTR (Click-Through Rate)**: **5% CTR** on video thumbnails.
5. **Likes & Dislikes**: At least **1,000 likes**, less than **50 dislikes**.
6. **Comments**: Aim for **50+ comments** per video.
7. **Subscribers Gained**: **300 new subscribers** per video.
8. **Audience Retention**: **70% retention** for the first half of the video.

Instagram Metrics:

1. **Engagement**: Aim for **100 likes** and **10 comments** per post.
2. **Shares**: **50 shares** per post to boost organic reach.
3. **Followers Gained**: **300 new followers** per month.
4. **Story Views**: **300 views** on Instagram Stories within the first 24 hours.
5. **CTA Clicks**: Track **100+ clicks** on any links in Stories or bio.

Timeline

Step 1

March – April

Week 1-4:

- **YouTube**:
  - Post 2 videos per week (8 videos total).
  - Focus on setting a strong content foundation—introduce the mascots, mental health topics, and educational themes.
  - Optimize videos for SEO, create eye-catching thumbnails, and develop a consistent posting schedule.
- **Instagram**:
  - Post 3 times a week (12 posts total).
  - Share snippets from YouTube videos, behind-the-scenes, and educational carousel posts.
  - Use Stories for audience engagement (polls, Q&A, etc.).

Starting with friends and family, reach as many people as possible

Step 2

April - May (Post-Launch Engagement)

YouTube:

- Continue posting 2 videos per week (8 videos total).
- Focus on more in-depth topics or expanding on mental health challenges and solutions.
- Engage in community building by responding to comments and encouraging discussion.

Instagram:

- Continue posting 3 times a week (12 posts total).
- Start incorporating more community-driven content: repost user comments or user-generated content, run polls or challenges, and use Stories to highlight key moments from videos.
- Engage with followers in DMs to build a relationship.

Organize a small-medium sized educative event
Visit public places and raise awareness
Release a print content and reach schools

Step 3

Week 9-12:

- **YouTube**:
  - Post 2 videos per week (8 videos total).
  - Start incorporating feedback from viewers (adjust content based on comments and engagement).
  - Create a call-to-action for donations or other initiatives related to the NGO's mission.
- **Instagram**:
  - Continue posting 3 times a week (12 posts total).
  - Focus on storytelling through captions and highlights to emphasize the impact of the NGO's mission.
  - Promote YouTube videos directly on Stories, encourage followers to share posts, and run interactive polls.

Organize a large sized fun and educative event
Find sponsors
Go international
Start working for franchising and standardize the processes

Projected Outcomes

Expanding Our Reach

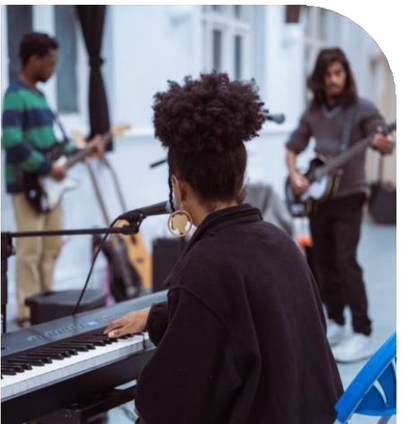

Extend our project’s impact to children aged 2-10 globally, improving mental health and emotional intelligence.

Engaging Parents

Encourage more parents to share our content, fostering better mental health and emotional intelligence in children.

Leverage Influencer Content and Fundraising

Partner with influencers to amplify visibility and encourage donations through engaging posts, stories, and fundraising events.

Future Recommendations

Host Virtual Events

- Organize webinars, live Q&A sessions, or virtual workshops focused on emotional intelligence and mental health for children.
- Invite child psychology and education experts to provide valuable insights and engage with the audience.

Collaborate with Child Psychologists and Experts

- Partner with trusted child psychologists and emotional intelligence experts to enhance credibility.
- This collaboration will help build trust and encourage more parents to engage with your content.

Engage with Parenting Communities

- Join online parenting communities, forums, and social media groups to share your project.
- Offer valuable advice, contribute to discussions, and provide links to your relevant content, strengthening the connection with your audience.

Develop a Franchise

- Create a global franchise with standardized content and a uniform curriculum on emotional intelligence and mental health.
- Establish a digital platform for easy access, implement global marketing strategies, and conduct local outreach to expand your reach and impact.
